FULL-STACK APPLICATION DEVELOPER

Software developer driven by a passion for learning, dedication to producing excellent work, and a knack for taking initiative. Experience building full-stack applications with Javascript, React, Redux, React Native, Express Js, Ruby, Rails, SQL databases, and RESTful API architecture.

TECHNICAL SKILLS

Javascript (ES6), React, React Native, Redux, Thunk, Express js, Ruby, Rails, Django, Docker, Mongo Db, PostgreSQL, Active Record, SQL, Heroku, HTML, CSS, AWS, Cloudinary, Git, Netlify

TECHNICAL PROJECTS

[RFuW Engineering Pte. Ltd.](#) - [Github](#)

RFuW website is an Upwork project built for RFuW Engineering. The website has a Dashboard, by using the Login page you can access and manage it. If you're logged in, you can add, edit, and delete products

- Designed the front end using React, JavaScript, SCSS, Bootstrap, and HTML5
- React Axios to call Web APIs to fetch data from backend and update the states in the store of Redux
- Node.js and Express to build web server and Restful APIs.
- Designed MongoDB schema and implemented data access service to Create, Read, Update and Delete data

[Culina Admin](#) - [Github](#) | [Demo](#)

Dashboard of a SaaS construction Admin. Admin users can add new companies and manage current companies. Each company can have employee users added to them. Projects and work orders can be created to track ongoing work. Charts are displayed to show revenue, total employee count, total user count, and total project data.

- Dynamic (SPA) using React-Redux reusable components and popular libraries
- CSS preprocessor SASS to improve the maintainability of CSS
- Restful web services with Express, NodeJS, and MongoDB

[RentMe](#) - [Github: Web App](#), [Github: Mobile App](#) | [Demo Web App](#) - [Demo Mobile App](#)

Car rental app with customizable dates for customers. Admin can upload images for new car postings, manage current listings, and review booking metrics reports.

- Single Page Application (SPA) using React-Router and to enable navigation from one view to the next as clients perform application tasks. Applied redux middleware using redux-thunk.
- React native components, Forms, Event, Keys, Navigation
- Designed RESTful backend server with Active Record, PostgreSQL, and Ruby on Rails.

EXPERIENCE

Freelance

Software Engineer

New York, NY
February 2021 - Present

- Designing and developing responsive design websites.
- Coordinate, execute, track and deliver various customer projects from initiation through completion.
- Optimizing web pages for maximum speed and scalability.
- Building reusable code for future use.

JETSWEAT

Software Engineer Intern

New York, NY
Jan 2021 - May 2021

- Working with designers to translate mockups into interactive website content.
- Attending and contributing to company development meetings.
- Learning the codebase and improving coding skills.
- Writing and maintaining code along with working on minor bug fixes.

Leone

Lead Electrician

Carlstadt, NJ
May 2017 - Apr 2020

- Supervised 15-20 job sites per month; contracted by T-Mobile, Verizon, and Spectrum.
