FULL-STACK APPLICATION DEVELOPER

Software developer driven by a passion for learning, dedication to producing excellent work, and a knack for taking initiative. Background in restaurant management and construction. Experience building full-stack applications with Ruby, Rails, Javascript, React, Redux, SQL databases, and RESTful API architecture.

TECHNICAL SKILLS

Javascript (ES6), React, React Native, Redux, Thunk, Express js, Ruby, Rails, Django, Docker, Mongo Db, PostgreSQL, Active Record, SQL, Heroku, HTML, CSS, AWS, Cloudinary, Git, Netlify

TECHNICAL PROJECTS

RentMe - [Github: Web App](#), [Github: Mobile App](#) | [Demo Web App](#) - [Demo Mobile App](#)

Car rental app with customizable dates for customers. Admin has the ability to upload images for new car postings, manage current listings, and review booking metrics reports.

- Single Page Application (SPA) using React-Router and to enable navigation from one view to the next as clients perform application tasks. Applied redux middleware using redux-thunk.
- React native components, Forms, Event, Keys, Navigation, and Redux concepts
- Used Middleware, Redux-Promise in application to retrieve data from Back-End and to also perform RESTFUL services
- Designed RESTful backend server with Active Record, PostgreSQL, and Ruby on Rails.
- Authenticated users at login by encrypting identifying account information.

friends - [Github](#) | [Demo](#)

Mobile optimized Social Media App featuring real-time message delivery, user profile customization, easy network building, and user authentication.

- Developed Javascript/React/Redux front-end and Rails/Active Record/Postgres back-end application.
- Delivered live updates with fully-integrated WebSockets and Thunk middleware to open client-server communication.

FootBall Masters - [Github: Front End](#), [Github: Back End](#) | [Demo](#)

Sports app with information on all countries' soccer leagues, teams, and players with user ability to create favorite teams.

- Developed object-oriented JavaScript front end Single Page Application (SPA).
- Communicated with Api-Football RESTful API endpoints to render the data.
- Designed RESTful backend server with Active Record, SQLite, and Ruby on Rails.

EXPERIENCE

JETSWEAT

Software Engineer Intern

New York, NY

January 2021 - Present

- Tasked with coding and debugging software applications and experimenting with design elements.
- Reviewed other engineers' code, tested software applications and patches, and implemented changes and updates when necessary.

Leone

Lead Electrician

Carlstad, NJ

May 2017 - Apr 2020

- Supervised 15-20 job sites per month; contracted by T-Mobile, Verizon, and Spectrum throughout NJ and 5 boroughs
- Ensuring 100% safety and continual customer satisfaction by installing and repairing wiring, electrical fixtures, power equipment, and components of machinery and equipment following electrical code, manuals, specifications, schematics, and blueprints.
- Evaluated workmanship of electricians and contractors, promoting collaboration and trust between local partners

Bosphorus Lounge

Owner - Restaurant Manager

Ohrid, North Macedonia
